Re: Request for Bids No. K-07-7030-25; Automated Jury Management System, Amendment No. 4

Dear Interested Party:

This amendment contains questions asked by interested parties and answers provided by the Maryland Judiciary.

Q. On page 2 of 4, the answer to the question regarding Oracle licenses seems to indicate that pricing for additional licenses needs to be included by the vendor, but on page 3 of 4, the answer to the question re: page 7, A.2 #8 states that the vendor does not need to include Oracle pricing. Can you please clarify?

A. Clarification – the vendor need not include database (Oracle) pricing.

Q. On page 3 of 4 relating to the question regarding page 7, A.2 #3 data conversion, are there 14 different systems being replaced or are a number of the counties using the same system?

A. Of the 15 systems being replaced, 13 are DOS-based, 1 is mainframe-based, and 1 is a vendor-based COTS solution. (See chart below)

Q. On page 3 of 4 relating to the question regarding page 11, 7, Scanning Features, what is meant by "portable scanning device"? There was some debate at the pre-bidders conference as to whether this meant an imaging system, or whether it meant a portable bar code reader device (and system for same). Can you please clarify?

A. Vendor should propose their proposed solution to support both bar coding and imaging needs a court may have, including hardware requirements and specifications

These are the only changes contemplated by Amendment No. 4. All other terms and conditions shall remain the same. Bids are (still) due no later than 12:00 p.m. on August 3, 2006.

Thank you for your interest in doing business with the Maryland Judiciary. I may be reached at 410-260-1410 if you need additional information.

Sincerely,

Raymond Mack
